NOTES:

- Question and Answer Period at 8:20 PM will follow the attachment. If you have a new question it should be addressed during Open Discussion at 8:40 PM or be put on the Predetermined Questions for the next meeting.
- **Directions from I-5:**
 1. Take Highway I-205 East.
 2. Take Orchards / SR 500 Exit
 3. Turn East on NE Fourth Plain Road
 4. Turn Right at NE 147th Avenue
 5. The fire station is clearly visible from NE Fourth Plain Road. If you reach the Safeway you have gone to far.
- If you have any questions or need further help with directions, please give Jennifer Walters a call at 253-966-1771 or email at waltersj@lewis.army.mil

Question and Answer Period

1. The Army Coordinator is writing work plans, with contractors, per the Enforcement Order.
 - A. How many work plans are being constructed now?
 - B. When will the RAB review these plans?
 - C. Who has the Army spoken with on the RAB that would balance the Army's commitment to include Community Priorities within these plans?
2. Has the Army demonstrated funds for transfer? Does the Army have a timeline for this process?
3. Please have the Army give the community an update on the sentry well (which was installed for off-site contamination early warning), which is showing 5 PPB of Ammonium Perchlorate. This well is located for community reference: Lacamas Creek and NE 65th Street.
4. Has the Army contacted local area schools, fire and rescue, and law enforcement explaining the clear and present danger that exists at Camp Bonneville? (Fences are down and the majority is two-strand barbwire.) What are the plans specifically?
5. Does the Army have an obligation to report the elevated contamination levels it finds at Camp Bonneville, to local public water purveyors in the same proximity and/or that draw water from the same Aquifer?
6. Can Clark County update us on the difference between:
Public Benefit Conveyance PBC
Economic Development Conveyance EDC
Which will they be using for Camp Bonneville transfer?

*** Statements and questions come to the Army directly from the RAB Community Co-Chair. They are gathered from persons throughout the community and are written here as they come from the community. If you have a question that you would like included in a future meeting please contact the Community Co-Chair.
